ShortReel: Sprint 1–2 files for each member

Group 7 · Based on the task tables in Project 2 (Sprint 1 page 5, Sprint 2 page 6) · Checked against repo commit `4293827` on 2 Nov 2026

> All paths are relative to the repo root `short_reel_app/` · **B** = backend (`backend/src/`) · **M** = Flutter (`mobile/lib/`) · Screen sketches are in `docs/ui-screens/`
> Names are the owners in the plan · ⚠ = files exist, but part of it still needs more testing

6731501078 Yutthasat Kosa

	Task	Files

S1	Backend skeleton + API health check	`backend/src/app.js` (`GET /api/health`)
		`backend/src/server.js`, `listen.js`, `config/env.js`
		`backend/.env.example`, `README.md`

S1	GitHub repo + branch rules	repo `FrameNoname/Short-Reel-App` (branch `main`, `develop`, `Frame-dev`) ⚠ branch protection on main is not set yet
S1	Feed/Player sketches + film/episode endpoints	`docs/ui-screens/04-feed-home-guest.jpg … 12-player-episode3.jpg` `docs/api.md`
S2	Profile API + Creator earnings API	`B: routes/auth.js`, `controllers/auth.js` (`/auth/me`) `B: routes/creator.js`, `controllers/creator.js`, `models/creator.js`

S2	API collection for every endpoint (positive/negative)	`docs/postman/ShortReel-Sprint1-2.postman_collection.json`
		`docs/postman/ShortReel-manual.postman_collection.json`
		`docs/postman/run-collection.js`, `README.md`, `last-run.json`
		⚠ not run with Newman yet

S2	Profile / Creator dashboard views	`M: views/profile/profile_view.dart`
		`M: views/profile/creator_dashboard_view.dart`, `creator_profile_view.dart`, `edit_profile_view.dart`
		`M: controllers/profile_controller.dart`

	Task	Files
S1	ER diagram + full DB schema	`docs/er-diagram.md` `backend/db/shortreel.sql`
S1	Upload/review metadata and free/coin pricing fields	`backend/db/shortreel.sql` (`films.status`, `episodes`)
S1	Upload + Admin review sketches	`docs/ui-screens/25-upload-film.jpg … 30-admin-live.jpg`

S2	Feed, search/filter, episode-detail and protected playback APIs	`B: routes/films.js`, `controllers/films.js`, `models/films.js`
		`B: routes/episodes.js`, `controllers/episodes.js`, `models/episodes.js`
		`B: models/access.js`

S2	Admin approve / reject / take down	`B: routes/admin.js` (`POST /admin/films/:id/review`) `B: controllers/admin.js`, `models/admin.js`

S2	Feed / Player views	`M: views/feed/` (`feed_view.dart`, `film_page.dart`, `episode_video.dart`, `episodes_sheet.dart`, `unlock_sheets.dart`, `login_gate_view.dart` …)
		`M: views/player/player_view.dart`
		`M: controllers/feed_controller.dart`
		⚠ tested on web, not yet on a real device
